APPENDIX 1

DETERMINATION OF WHETHER AN ACTIVITY IS DEEMED TO BE IN OR OUTSIDE SCHOOL HOURS

Education/activities partly during school hours

This is governed by the 50% rule – if the time taken by the activity exceeds 50% in school time, it cannot be charged:

- (a) for non-residential activity if 50% or more is spent on the activity in school time, including any travelling time but excluding midday breaks, the entire activity is determined to be in school time and cannot be charged. If more than 50% takes place outside school time using the same criteria, it can be charged as an optional extra;
- (b) for residential activities the criteria for the 50% rule is different. Here the number of 'half days' are counted (a half day is any 12 hour period ending noon or midnight). Travel is to be included. If the number of days and half days taken up by the activity is greater than the number of school sessions (morning and afternoon) that the pupil would have to attend on normal school days, then the activity is deemed to take place outside school hours and can be charged. If the number of half days is less than the normal charged. When either departure or a return time splits a half day, then if more than 50% is taken by the activity, all of that half day counts.

This Policy was formulated by The Governing Body, in consultation with the staff, and has been approved by the Policy committee of the Governing Body. It will be revised as necessary. This latest revision was agreed October 2021.
